# ADJUST PORTION IF...

PHYSICAL ACTIVITY LEVEL IS

**LOW**

**MODERATE**

**HIGH**

If your dog has a low activity level, then the he or she won't need as much nutrition. Or else your dog may become overweight.

**Reduce portion with up to 50g per day.**

If your dog is moderate active then you should stay at the recommended portion per day.

**No adjustments needed.**

A highly active dog will need extra nutrition to stay focused and healthy.

**You should add maximum 50g per day.**

*\* If you ever have any questions about your dogs health you should contact a vet. Ask the vet if you have questions about your dogs weight or if you should change the daily portion of food.*
